## Our external accreditation

### The Forest Stewardship Council

The Forest Stewardship Council [FSC] is an international, non-governmental organisation dedicated to promoting responsible management of the world's forests. It was founded in 1993 in response to public concern about deforestation and demand for a trustworthy wood-labelling scheme. FSC UK is a registered charity. It is supported by NGOs including WWF, Greenpeace and the Woodland Trust.

### The Carbon Trust

The Carbon Trust Standard provides an objective benchmark against which to assess an organisation's commitment and success in addressing its climate change impact. It is designed to provide a robust, objective and consistent methodology for assessing corporate carbon performance. The Standard specifies requirements in three key areas:

- Carbon footprint measurement
- Carbon management
- Carbon reduction performance

### ISO 14001

J C Atkinson has been accredited with the ISO 14001 standard, the internationally recognised mark for the environmental management of businesses. It prescribes controls for those activities that have an effect on the environment. These include the use of natural resources, handling and treatment of waste and energy consumption.

## A guide to our own initiatives

### Greener Goodbyes

Greener Goodbyes is a service to help families have a 'Greener' Funeral. It includes a choice of suitable coffin, a natural memorial and the Carbon Rebalancing associated with a typical funeral. The [GG] symbol indicates coffins suitable to be used with the Greener Goodbyes package.

### Tree Tribute

When a coffin is sold with the Tree Tribute merit, [TT], a sapling tree will be planted to help restore, preserve and sustain wildlife.

We can supply the sapling tree(s) to you to plant locally or it can be upgraded into a gift pack for presentation to your family for planting.

### Carbon Rebalance

For every Coffin sold with the Carbon Rebalance symbol, [CR], we donate £5.00 to Groundworks Green Doctor initiative: providing help to the elderly and needy by cutting energy bills, saving carbon emissions and making homes more affordable to heat and light.

We estimate that with this donation, the Carbon emissions associated in the making and delivery of the coffin will be re balanced in a 2 to 3 year period.

HEARTWOOD

VENEERED  
COFFINS

# Heartwood™ Veneered Coffin Range

Coffins manufactured using real wood. The wood veneer is laminated either onto chipboard or MDF. Machine cut and hand finished, represented in this catalogue are our more popular models. All are made by J C Atkinson with greater emphasis on quality. The veneer range is finished and polished by hand to an exact standard. For example the mitres and all pin or nail holes are filled and sanded. All coffins are sealed and re polished to your chosen colour and finish. The range of sizes available is also restricted (see size chart for details). All are Forest Stewardship Council accredited.

The moulds are made using solid or veneered wood. They do not match exactly, due to the nature of wood and the variation in species. The coffin base is made from chipboard, or in the case of a larger outside coffin above 26 inches wide, the base is made from plywood. Made in a range of sizes, see page 28.

## Oak Veneer

Our Oak veneer is sourced from Forest Stewardship Council certified European forests. Certification guarantees the sources are from a sustainable well managed source.

## Elm Style Veneer

Forest Stewardship Council certified. Manufactured from real wood and manipulated to mimic real Elm veneer.

## “Mahogany” Veneer

Forest Stewardship Council certified. Manufactured from real wood and manipulated to mimic real Mahogany veneer. We use Sapele veneer, a type of tree which is part of the Mahogany family.

## Pippy Oak Veneer

This is a premium cut of Oak where many knots are concentrated, creating an interesting and wild grain structure.

## Golden Maple Veneer

Supplied from a proven source. Like the above, the clusters of knotty veneer are joined to make a more wild grain structure.

\*Please note that these swatches are intended as a guide only. Due to the nature of wood, actual finish may vary slightly.

## New Floral Tributes

Floral tributes have a long association with funeral arrangements and as such it is not surprising that picture coffins which utilise flowers in their design have become a popular choice. These floral designs offer a softer, more colourful alternative to a traditional wood coffin and can hold special significance. Poppies are well known for their link to remembrance, while daffodils can signify re-birth and renewal. The example above incorporates a tartan draped over the coffin which alludes to a specific clan. This can be substituted for any other family tartan or fabric provided.

### Thistle

\*Personal details must be requested and are not part of the standard design.

### Daffodils

### Bluebells

Our ashes caskets can match any coffin design.

## That Somewhere Special

Landscape views and vistas often conjure up very emotive feelings, which resonate with certain periods in peoples personal history. For this reason a landscape inspired picture coffin can conjure up memories of a loved one's past, perhaps displaying a place that held special meaning for them, or a location where they enjoyed spending time. Our team can recreate panoramas that wrap around the sides of the coffin from photographs supplied; or if it is a well known location, we can source the images on your behalf.

### Highlands

### London By Night

\*Personal details must be requested and are not part of the standard design.

### Break Of Day

## Sporting Life

For many of us, sport can become a passionate corner-stone of our lives, manifesting itself in a life long dedication to a particular team. Many of the requests that utilise our personalised service reflect this passion, and sporting and team coffins remain some of our most popular designs. Through flags and motifs we can reference national teams, and in the event of wanting to include a specific club, our designers, wherever possible, can liaise to secure the permission to do so.

### Sport Nation

### Steeplechase

Personal details can be added any of our coffin designs.\*

### The 18<sup>th</sup> Hole

\*Personal details must be requested and are not part of the standard design.

## We Are Passionate People

As with sports, pastimes and leisure activities can become a defining aspect of peoples lives. Be it painting, fishing or gardening, we can create a picture coffin that utilises photographs supplied. If the deceased rode a particular motorbike, or sailed a particular vessel, we are happy to create a design that incorporates the right imagery for a truly personalised picture coffin.

### Locomotion

Personal details can be added any of our coffin designs.\*

### Sailing

\*Personal details must be requested and are not part of the standard design.

### In the Garden

Our ashes caskets can match any coffin design.

## Words to Remember

Many of our customers like to include poetry, readings, song lyrics or their own writing on the coffin design, for a more sentimental and personal touch. They may represent a favourite piece of prose, express an emotion or sentiment that celebrates the life of your loved one. The text can be laid over or combined into any design and can give an additional level of meaning to your personalised picture coffin. We have illustrated a few popular choices on the following pages, but you can add anything you like to almost any image.

### The Caterpillar

"What the caterpillar calls the end of the world, the master calls a butterfly."  
- Richard Bach

### Candle On Water

"For death is no more than a turning of us over from time to eternity."  
- William Penn

### Flowers On Marble

"We cannot banish dangers, but we can banish fears. We must not demean life by standing in awe of death."  
- David Sarnoff

You don't need to live in the countryside to have a greener funeral

J C Atkinson recognises its commercial practice has a direct effect on the environment and peoples social and ethical welfare.

In response to this policy we have endorsed the coffins with following attributes.

For every coffin we sell with this emblem we will plant and maintain a quality deciduous sapling tree.

Carbon Rebalance: for every 'Country Range' Coffin we sell, a £5.00 donation is made to the national environmental charity Groundwork, an organisation who will install energy reducing equipment in the homes of the elderly and those in receipt of benefit. It has been calculated that the carbon used in the coffins manufacture will be re balanced by means of energy reduction over a 1 to 2 year period.

Once you have selected your Country Range coffin you can opt for a greener funeral without complicated arrangements and no expensive options.

# Greener Goodbyes

## Step 1: Choose a Natural Memorial

Having greener funeral starts with your choice of coffin, a coffin from the Country Range differs from other coffins as they are...

- made using sustainable materials
- are readily biodegradable, and suitable for all types of natural or traditional burial
- have been tested for their suitability and are accepted for cremation
- have a low Global warming potential (GWP) carbon footprint

With the selection of a Country Range coffin which has a lower environmental impact you have already made a positive difference to the environment.

### Option 1: A lasting tribute

We can provide a Woodland Memorial Pack, which consists of a sapling tree, a wooden memorial marker and an engraved plate. This option allows you to plant a tree close by, perhaps in the family garden or similar location, in memory of the person who has been lost.

### Option 2: Donate your tree for planting

If you do not wish to plant the tree yourself, we can plant a tree in an area of natural habitat in England, Wales, Scotland or Northern Ireland. This renovation of woodland provides a long lasting growing memorial to the person who has been lost.

### Option 3: Rainforest conservation - converting your natural memorial into a cash donation

Alternatively, you can convert the tree donation into a cash contribution which will go towards supporting the conservation of the rainforest. This contribution will help protect threatened habitats around the world for future generations.

## Step 2: Rebalancing the carbon emissions associated with your funeral

We have used a specialist firm of consultants to understand in detail the carbon emissions associated with all aspects of a funeral, be it a simple local service or a more complicated funeral arrangement. From this we have derived an average carbon emissions value for a typical funeral. It is this value we set out to rebalance over a 2 to 3 year period.

In summary, the carbon footprint of a funeral is made up of the following...

- all travel associated with the collection of the deceased and arrangement of the funeral
- the preparation and care of the deceased at the funeral home
- the running and maintenance of a funeral home
- the travel to the service by the funeral vehicles and other mourners
- the provision of the grave for Burial or use of energy for the Cremation

## Step 3: Leave a Community Legacy

As part of the Greener Goodbyes initiative a donation of £25 is made to Groundwork UK, which pays for energy conservation measures to be installed in the homes of the elderly or other recipients of benefit Groundwork UK typically works by installing loft Insulation, low energy lighting, draft proofing and energy monitoring metres, all of which are designed to reduce energy usage by as much as 30%. By means of a simple calculation you can be assured that the carbon emissions of your funeral will be rebalanced in a 2 to 3 year period and that your legacy will continue to work, helping those in need with lower energy bills and lowering their carbon footprint into the future.

### Nursery Rhymes & Bedtime Stories

Children's rhymes and stories can be a great starting point to gather inspiration. Perhaps it was something you both enjoyed reading together or it contains a message that you would like to convey to others. Be it a religious parable, a fairy tale or nursery rhyme, the imagery within can produce a beautiful crib that holds a special meaning for you or your loved one.

Hey Diddle Diddle

Noah's Ark

## Cartoon Creatures & Characters

Many youngsters have a special fondness for a specific animal, creature or character. These can be easily adapted to form the basis for a personalised crib. Be it a fairy princess, a ballerina, a spaceman, a lion or tiger, our designers can re create these characters in any style: perhaps a cartoon, an illustration or maybe a photo realistic image.

### Wand Fairies

## Cherished Toys

A favourite toy or treasured possession can be another place to take inspiration. An image of a particular doll or teddy bear which was cherished by your loved one can become a special point of focus within any design. As well as specific toy, there maybe a particular game that you shared together that you would like to see incorporated into the crib.

### Teddy Bears

## Additional Ways to Personalise

Many people like to include poetry, song lyrics or their own writing as part of the crib design, giving a more personal touch. This can be extended to include treasured photographs that celebrate the life of your loved one. The text and images can be overlaid or combined into any design and can give an additional level of meaning to your personalised picture crib.

## Jona

The Jona bed sheet is a 3-ply leakproof, biodegradable absorbent bed sheet designed for near-to-death patient care. It has been designed to be used in place of a bottom bed sheet.

Upon death, the person is simply wrapped in the sheet, securely fastened by the self-adhesive tabs, and then the excess material can be safely used to lift the person onto the removal stretcher.

The sheet will absorb any moisture, condensation and leakage, trapping odour and preventing mess. A bridge between pre-death care and post-death care.

## Gemini

The Gemini comfort liner uses the same technology as the Jona, but is coloured white on the back and front. It is not designed for lifting nor does it have the self-adhesive tapes to facilitate closure. However, the concept remains. It is soft and warming to touch and helps to maintain the hygiene of the deceased by absorbing condensation, leakage and odour. Presenting the deceased in a cleaner, softer and comfortable environment.

The product is biodegradable, suitable for burial or cremation.
